The availability of particular products and applications and services for these products may vary by region. Please check with your Nokia dealer for details, and availability of language options.

Some operations and features are SIM card and/or network dependent, MMS dependent, or dependent on the compatibility of devices and the content formats supported. Some services are subject to a separate charge.

Copyright protections may prevent some images, music (including ringing tones), and other content from being copied, modified, transferred, or forwarded.

Refer to the user guide for other important information about your device.

ISSUE 1 EN

Nokia Nseries PC Suite

Nokia Nseries PC Suite is a set of PC applications that can be installed to your compatible PC. Nokia Nseries PC Suite groups all available applications in a launcher window from which you can install applications. With Nokia Nseries PC Suite you can install applications to your compatible PC under C:\Program Files\.

To use Nokia Nseries PC Suite, you need a PC that runs on Microsoft Windows XP (SP1 or SP2) or Windows Vista, and is compatible with a USB data cable or with Bluetooth connectivity. Before using Nokia Nseries PC Suite, you need to install it on your compatible PC. See the DVD-ROM supplied with your device for more information.

Some useful PC applications are:

Nokia Nseries PC Suite—to synchronise contacts, calendar, to-do, and note items between your device and a compatible PC personal information manager (PIM), such as Microsoft Outlook or Lotus Notes; web bookmarks between your device and compatible browsers; and images and videos between your device and compatible PCs. Nokia Nseries PC Suite also includes support for other features.

Content Copier—to back up data from your device or restore saved data from the compatible PC to the device

Nokia Music Manager—to create and organise digital music files on a compatible PC and transfer them to a compatible device

Lifeblog—to organise your photos, videos, sounds, text messages, multimedia messages, and weblog posts into a chronology that you can browse, search, share, publish, and back up. Lifeblog consists of Nokia Lifeblog PC and mobile applications, which together let you send or blog your items for others to see.

Update manager—to receive automatic notifications about new versions of Nokia Nseries PC Suite software from a Nokia server

One Touch Access—to establish a network connection using your device as a modem
