About Nokia Drive

Select  > **Nokia Drive**.

Nokia Drive guides you where you want to go with voice-guided turn-by-turn directions.

You can:

- Find your way with turn-by-turn directions and voice guidance
- Track your location, speed, and the distance driven, even if not navigating
- Preload maps before travelling and use Nokia Drive offline to save data costs
- Save your most-used destinations to your phone
- Get a warning when you exceed the speed limit
- Get real-time info on traffic incidents and conditions on your daily routes using my commute

Using services or downloading content may cause transfer of large amounts of data, which may result in data traffic costs.

Drive to your destination

When you need turn-by-turn directions while driving, Nokia Drive helps you get to your destination.

When you use Nokia Drive for the first time, your phone asks you if you want to download street maps for your current location and a navigation voice that matches your phone language settings. If you download the maps using your home Wi-Fi connection before you leave for your trip, you will save on data costs while travelling.

If the my commute feature is available in your country, your phone may also ask you to give your home and work address.

- 1 Select  > **Nokia Drive**.
- 2 Select  > **Set destination**, then search for your destination or select a recent destination from **Last destinations**.
- 3 Select **DRIVE TO** > **START**.

4 Save or view a place

4 To stop the navigation, select  > **Stop navigation**.

You can also start driving without a set destination. The map follows your location.

By default, the map rotates to your driving direction. The compass always points north.

Tip: To use a full screen map, tap the map. To see the info area again, press .

Obey all local laws. Always keep your hands free to operate the vehicle while driving. Your first consideration while driving should be road safety.

Save or view a place

To aid your travel planning, you can search for places, such as hotels, attractions, or petrol stations, and save them to your phone.

Select  > **Nokia Drive**.

Save a place

- 1 To search for a place, select  > **Set destination** > **Search**.
- 2 Write search words, such as a street address or place name.
- 3 Select a place from the list.
- 4 Select .

Drive to a saved place

In the main view, select  > **Favourites** and the place.

Tip: You can pin a favourite destination to the start screen, so you can navigate to it quickly. Select  > **Favourites**, select and hold a place, then select **pin to start**.

Get voice guidance

Voice guidance, if available for your language, helps you find your way to a destination, leaving you free to enjoy the journey.

Select  > **Nokia Drive**.

- 1 Select  > **Settings** > **Navigation voice**.
- 2 Select a language, or to not use voice guidance, select **None**.

You can also download new navigation voices.

Download navigation voices

Select  > **Settings** > **Navigation voice** > **Download new** and a voice.

Download or remove maps

To save on data costs when travelling, save new street maps to your phone before your journey. If you're running low on space in your phone, you can remove some maps.

Select  > **Nokia Drive** and  > **Settings** > **Manage maps**.

To download maps on your phone, you need to be connected to a Wi-Fi network.

Download a map

- 1 Select .
- 2 Select a continent, a country, and an area if applicable, then select **Install**.
To cancel the download, select .

Remove a map

Select the map, and on the map details page, select .

Remove all maps

Select  > **delete all** > **OK**.

Using services or downloading content may cause transfer of large amounts of data, which may result in data traffic costs.

Navigate offline

To save data costs, you can also use Nokia Drive offline.

- 1 Select  > **Nokia Drive**.
- 2 Select  > **Settings**.
- 3 Switch **Connection to Offline**

Some features, such as search results, may be limited when using Nokia Drive offline.

Get assistance when commuting

Reduce your commuting stress – Nokia Drive learns your daily routes and gives you real-time info on traffic conditions and incidents.

Set up my commute

- 1 Select  > **Nokia Drive**.
- 2 When you open Nokia Drive for the first time, you may be asked to set up the my commute feature. To set up the feature later, select  > **Perform the Quickstart setup**.

6 See your next commute on the start screen

- 3 Search for your home and work address, then type in the time you usually go to work and head back home.

You can see info on the traffic conditions and estimated travel time for your next commute on the Nokia Drive live tile on the start screen. You also get real-time info on traffic conditions and incidents while driving.

Start your commute

On the start screen, select the Nokia Drive live tile. Your phone suggests a destination based on the current time. To set off to the suggested place, select **COMMUTE**.

The more you use my commute, the more it learns – if you drive to a destination more than once, the destination is saved as a favourite.

Tip: To use a favourite as your destination, for example, to go to the gym instead of home, select the live tile, then select .

This feature is available for selected regions around the world. More regions are constantly being added.

The availability of traffic info may vary according to the region and country.

See your next commute on the start screen

You can see info on the traffic conditions and estimated travel time for your next commute on the Nokia Drive live tile on the start screen.

When you have set up my commute, the Nokia Drive tile on the start screen shows info for your next commute on its flip side. You may need to wait a while until the tile flips.

The live tile gives you a destination prediction and the estimated time it takes you to get there.

On both sides of the tile, you can see how heavy the traffic is on the routes you usually take:

-  No delays on any of the routes
-  Delays on some of the routes
-  Delays on all routes

You can see the commute info on the live tile only if there's a destination suggestion available for the present time of day.

Change the look of the Nokia Drive view

Would you like to see a more realistic 3D map, or are you using Nokia Drive at night, when it's dark? With the different map modes, you can see the info you need clearly at all times.

Select  > **Nokia Drive**.

Switch between 2D and 3D

Select , then select 2D or 3D.

To see the map clearly also when it is dark, you can use night mode.

Switch night mode on

Select  > **Settings**, then switch **Map colours** to **Night**.

Tip: To switch night mode on automatically when it's dark, select **Automatic**.

When navigating, the remaining distance to your destination is shown by default. You can also set Nokia Drive to show your estimated time of arrival or remaining time.

Switch between distance, time of arrival, or remaining time view

In the navigation view, select the remaining distance and an option.

Tip: By default, Nokia Drive shows prominent buildings and attractions on the map. If you don't want to see them, select  > **Settings**, then switch **Landmarks** to **OFF** .

Get speed limit warnings

Don't let your speed drift above the limit – set your phone to warn you when you're driving too fast.

The availability of speed limit info may vary according to the region and country.

- 1 Select  > **Nokia Drive**.
- 2 Select  > **Settings**, then switch **Speed limit to Alert on** .
- 3 To set by how much you can exceed the limit before being warned, drag the **Alert if my speed exceeds limit by** slider. You can set a separate limit for lower and higher speeds.

Give feedback on Nokia Drive

Tell us your opinion on Nokia Drive, and take part in improving the app.

To give feedback, you need to have an active internet connection.

- 1 Select  > **Nokia Drive**.
- 2 Select  > **Feedback**.
- 3 Select how likely you are to recommend Nokia Drive to other people. You can also give your reasons.
The feedback is anonymous.
- 4 Select **SEND**.

After you have sent your feedback for the current version of Nokia Drive, the option is no longer available.
